Avionic's Best Kept Secret

DOUBLE M AVIATION

Quality aircraft maintenance with no excuses.

2016 ADS-B Safety Seminar Series

Mac Avionics and Double M are excited to kick off the 2016 ADS-B Safety Seminar Series by welcoming Appareo to our facility. Please come out for the seminar and find out about their new product, the Stratus ESG.

Invest in Your Own Safety Now

The 2020 ADS-B mandate is nearing. Many pilots tell us they are going to wait until the mandate is closer to equip. As the deadline approaches, installation demands will surge and qualified facilities will not have capacity to handle the surge in a timely manner. Why Wait? This technology provides the purchaser with **SAFETY BENEFITS** immediately. Retrofit now and get 3 years of **SAFETY** before the deadline!!!

Stratus ESG Transponder

- Advantages:
- Transmits ADS-B on 1090ES** - This allows dual band receivers to see you directly
 - With integrated GPS** - no need for any other equipment
 - Interface available** to share external antennas with Stratus Portable ADS-B receiver

SPECIAL SEMINAR OFFER

Saturday June 4th, 2016
Breakfast served at 9am
Seminar begins at 10am

Pre-Register online at DoubleMaviation.com. The first 25 registrants will receive a \$25 certificate at the seminar entitling them to \$25 off a transponder FAR 91.413 certification at Mac Avionics or \$25 off an oil change at Double M Aviation.
